# ELECTRONIC ROBOCOP™

FOR AGES 3 & UP

Here's some information on what's happening or has happened already. I'm looking for scene reports from all over so send them in. BURN. Now that's cool. SoapBox Records is opening up, on the internet. Surf it to find out where. SoapBox Records is a new record store that is good for hardcore and punk. They got other stuff too and GO KART run the store so check it out. My records will be in there soon I hope. Speaking of my label Bed Of Nails, it's doing good. The first 7 Inch we came out with was on yellow vinyl and sold out entirely. I say "we" because it's a split with State Of Mind Records. The band featured on it, ENRAGE, really made a name for themselves in the past couple of years and we're really happy they let us do their record. The next planned release is by a new band called DISTANCE. They have a melodic hardcore sound but not like that Emo trash. I'm sure they'll go quickly too. The DownLow won't be playing shows for a while, singer went on vacation. Throw-down recorded some stuff but I don't know what label it will be on. Kill Your Idols are on Blackout I think. Against The Grain will be in an upcoming video game I'm doing. Drawing A.G. is unique. New Yorks Hardest 2 is (Coming) out but it isn't on IJT Records, the label that put out the first one. Zines to get are the new In Effect, the new State Of Mind, and the new Da Inner Suburban Tension. There's a new zine called Foundation. Originally it was gonna be called Have You Seen It?.. I like that name better but check out their debut. INTENSE CITY is the first ever hardcore CD ROM zine and my next CD ROM will be even better.

This is my RECORD REVIEW section. Records, demos, COMPACT DISCS, and the like are reviewed here by me unless it say "reviewed by Tay" or something like that. If you sent me an album and you don't see it reviewed here it's in.... INTENSE CITY#2; The Missing Issue. All the albums from this particular issue were received by me in 97, regardless of when they came out. Immediately after the RECORD REVIEW section is my ZINE REVIEW section. If you'd like something reviewed, obviously, send it into my section.

# Brass & Woodwind

ABHINANDA- Did I spell the name right? I didn't like this because it seemed too repetitive. It seemed too repetitive. I liked the lyric "Don't just fight against something fight for something." and a couple of others. You might like this more. VICTORY POBOX 146546 Chicago IL 60614 U.S.A..

ADHESIVE "Sideburners"- They have to be cool because they have a camel on the cover. One Foot Records ( Address listed elsewhere ). Review by Tay Pitfall.

ALL ELSE FAILED "A Most Bitter Season"- With 2 vocalists, 2 guitarists, and the usual drums and bass they really know how to build up noise into layers. This sets a sad mood much like Starkweather. The lyrics seem just as negative so I did not like it. Temperance POBOX 685 North Field Nj 08225 U.S.A.

APATHY- The first song has rap parts. The second song has V.O.U. type singing parts. The third and final song has talking parts. Along with screams in each song you get a color cover to this cassette. If you into the styles I described then get this. 360 Gaterwater Crt Apt 202 Glen Burnie Md 21060 U.S.A..

ATLAS SHRUGGED/ NEW DAY RISING- I like ATLAS SHRUGGED here more then when I seen them on stage but I still don't like them too much. The other band NEW DAY RISING is a Canadian band with a similar style and lyrics are poetic for both yet I like anger to be angry, not nice and abstract. Split 7 Inch. BURNSIDE "Rebirth"- No. I don't remember this but I got the  
feeling that I liked it. Bands use to stand out more, and  
some still do but too many sound alike. BURNSIDE happen to  
be one of those bands. It's like watching a movie you like,  
but once it's over, ya forget about it. I try to make my  
zines memorable by having a visor come with it, or by doing  
a "Just Reviews" issue. If bands could apply this to music,  
packaging, or anything it would help. Gut Punch Records  
103 N Grove Ave #2 National Park NJ 08063 U.S.A..

CAUSE FOR ALARM "Birth After Birth"- Great. The energy, the  
music, the spiral message on the CD traycard; everything  
rules about this CAUSE FOR ALARM album. I liked it much  
better then their last album. 6 hardcore songs done excell-  
ent. Wait a while on the last track to hear some funny stuff,  
and get this album. VICTORY POBOX 146546 Chicago IL 60614

COMIN' CORRECT/ STRENGTH/ NO COMPROMISE- Back Ta Basics puts  
out 8000 much stuff ya wouldn't know where to start if it  
wasn't for a zine like mine to tell you. This is the one;  
start with this record if you don't own any BTB stuff. It's  
just as good as the others plus has a Negative Approach cover  
on it. You get to choose-which band ya like-the best. Each I  
is a little different. BTBasics 79 3rd Ave Paterson NJ 07514

CONSTRITO

started back in 96 with Pierre on guitar and Gabriel on drums, after some lineups came  
Marcelo(vocals), Alexandrine (guitar)and Rafael(bass). Everyone in the band likes death and trash metal  
and this influence is present in some of the songs, but other ones are just Hardcore. We try to play music  
with variet between "new and old school", mixing it all together. Our lyrics are in portuguese; we want to  
make people conscious of all the problems here in Brazil that's why we translate the lyrics in english, so  
everyone can take out some knowledge from it.  
This our first demo, we've recorded it live; it's the best we could afford for the budget we had.  
Because of the fact that we're new, we haven't play very much shows, but we're working hard for it.  
trying to get the support of the Sao Paulo scene.  
Thanks for your attention.

Anyone that likes metal should get this. Pierre de Kerchove

DAY IN THE LIFE- DAY IN THE LIFE are a promising post hardcore band with a progressive sound. They have strong rythems and interesting lyrics. They have tight musicianship. I bet they get the girls. DYSPHORIA "Hope Without Reason"- VIOLENT are "cool". They sound like your normal metal band with a little bit of a 90's feel but still retain the heaviness. FINAL EXIT "Umea"- Here's a CD I won't remember when I'm done listening to it. If you need to overdose on a Swedish band, this is the album to get. 22 fast paced tracks with some songs only a line or two long. The live shows might be fun but this CD isn't. VICTORY POBOX 146546 Chicago IL 60614 U.S.A..

FLESHGRIND- FLESHGRIND have a great death metal name. Heavy. Did I say heavy? Excellent doom filled lyrics. More poetic then the average death metal band. Strong sound and an interesting HR GIGER influenced cover art. FLESHGRIND would make a good horror movie. Review by Tay Pitfall. PULVERIZER PO BOX 946 Dixon IL 61021 U.S.A..

FORCED NINE- When people hear this do they think they are copying 25 TA LIFE or do they think it's just a coincidence they sound so much alike? My opinion is they're biting, but what else is new? There's a Pitfall in Australia too,

except the PITFALL from New York has a CD/ CD ROM out and was around first. FORCED NINE also sound like Neck in some areas. At least the silver looks nice on their packaging. 2 Victoria Drive Modbury S Australia 5092.

GRAVEDIGGAZ "The Pick, The Sickle, And The Shovel"- They had that video a while ago with them at a cemetery. Now this is their album sampler. Each song on here is a minute of the song taken from the actual album. That's annoying, especially since all the songs sound similar. Never liked them but this is O.K. even though I probably wouldn't like the album. Gee Street 1540 Ny Ny 10036 U.S.A..

INTENSE CITY #2- A wonderful CD with IDK, ANGER, FAT NUTS, WORTHLESS, and FACTION 0. The music is great and if you haven't heard these bands this is an excellent way to do so. Even if you have heard the bands don't hold that against them. It comes with a full color zine with lots of pretty photos. It contains an interview with BREAK-DOWN and many interesting reviews like the kind your reading now. The best part is it has a CD ROM track for the Mac and PC. There's no need for contact paper or scissors, it'll work for your personal computer. If you don't own one ( Like me ) rent a spot at NOBLE DESKTOP PUBLISHING for \$5.00, the price of the color issue and CD/ROM. Before I go to the next-review I'll tell you what's on the CD ROM. AGAINST THE GRAIN, INDECISION, DISTANCE, 25 TA-LIFE, RAINMEN, STATE OF MIND, WORLD STRANGER, SHUTDOWN, DISASSOCIATE, STEP ASIDE, FORIEGN OBJECT WRESTLING FUN, PEZ CANDY COMPANY, and plenty of reviews, art, and hidden buttons. You thought I forgot about THE URGENCY OF NOW. Nope, I didn't. It's a cable show that has most of the hardcore/ punk/ OI! bands and BEAVER related fun. It's been around before most of those other punk rock cable shows. THE URGENCY OF NOW is included on disc with videos of EARTHCRISSIS, FASTBREAK, HANDS TIED, MADBALL, UP FRONT, and so much more. Well, for only \$5.00 what more do you want, a photo of PITFALL? It has that too. INTENSE CITY PO BOX 668 Ny Ny 10116 U.S.A...

JOH COUGAR CONCENTRATION CAMP- "C'mon Baby C'mon" is good because the Misfits say it. I didn't like the rest of this album. Comical lyrics with HAPPY DAYS type music just don't do nothing for me. BYO POBOX 67A64 Los Angeles Ca 90067 U.S.A...

JUNGLE ROT- JUNGLE ROT are cool. They should of been the house band in Vietnam. They are some sick ass bastards. They're a death metal band. Great name. They're bombastic. They're fantastic. They're brutally tasty with cheezy lyrics. I like JUNGLE ROT. Tay Pitfall-reviews JUNGLE ROT. PULVERIZER PO BOX 946 Dixon IL 61021 U.S.A...

"N10CITY"  
NO SUBMISSION/ OVERTHROW- The vocals for NO SUBMISSION lag because they are just talked out in some parts. I think that hurts the music. Plus the lyrics are average. SCALPLOCK "Broken History"- It's hard to tell the name of the band from the title. This is too political, lighten up. The music sounds like Madball on one hand but on the other hand, it really doesn't. Eastview Bridge St Writtle Chelmsford Essex Cml 3ex merry old England.

SHAKE APPEAL "You're Too Rich"- An average, boring, East Village wannabe Rock N Roll punk band. Give it up because the 70's are over. This retrocrap has got to go in the garbage. The East Village is filled with untalented 3 chord bands that need to learn how to play. Put your sunglasses down you ain't cool. You'll never be rich. You'll play The Continental for the rest of your miserable lives to all the "old farts" who have to steal Bar Tabs just to keep their heroin addiction going who'll never buy your records anyway. You're just poserz. Loving review by Tay Pitfall. Go Kart POBOX 20 Prince St Ny Ny 10012 U.S.A..

SHIELD "Vampire Songs"- Vampire angle is silly. In order for me to begin to like your music it should NOT have vampires involved in any way. Since everyone's trying to please me, the next album will be much better. Some of the music has an innovating approach while other parts are corny. They are from Sweden to I believe. THE PINKERTON THUGS "The Pain And...."- I liked them more when I saw them live because I didn't know what the lyrics were all about. They are too political for me but some of the music is good. **BLACK AND WHITE #6-** Ska zine with info on Ska and some video games. It's good if your into Ska and some QI! but not much in the way of hardcore is mentioned. Maybe this will change or maybe they'll keep on doing Ska stuff. It's only 2 stamps if your interested. 504 Grand St #F52 NY NY 10002 U.S.A...

**JACKPOT-** Reviews, Descendents, Fahrenheit 451, and some sexual contents makes another issue of JACKPOT. About the "Bad pick-up lines" all I have to say is if you think you're gonna meet some suave and charming man in this world, let alone a hardcore show, ya might have to wait a while. Unless of course ya meet NO REDEEMING SOCIAL VALUE who always have the right stuff. JACKPOT is free at shows but you can send \$2.00 to POBOX 155 Cooper Stn Ny Ny 10276-0155 U.S.A...

**POSITIVE REACTION #2-** Not bad for a pocket-sized free zine. Has fun pictures to look at along with some reviews. **STATE OF MIND #3-** Zeus? Zeus? Zeus? There's more to life then food. An interview with some street guy named Zeus, Fastbreak, Candiria, and others are included in their third installment. In their zine review section there's only TWO zines they review out of over 20 that come from NEW YORK, NY; and they're both mine. Not to say that they're all bad but I'd like to see more zines from the birthplace of hardcore NEW YORK NEW YORK. Then again, STATE OF MIND is from Brooklyn and they're an elite zine. So check them out because the way they have the album cover next to each review rocks. S.O.M. c/o Jackson 1240 81 st Brooklyn Ny 11228-3004 U.S.A...

**WHAT LIES AHEAD #1-** They called their own debut a little sloppy but when I read the thing it's neat as anything. Sloppiness is in the eye of the beholder? This is a zine worth getting because it's not phoney like so many other zines. Another criteria to recognize if a zine is good is if their review section is solid, and it is. SHUT DOWN.

December 7 3:00 PM CBGB. This was that CASUALTIES show with the ABC NO RIO typecast bands. In a word: Monotonous. That isn't being married to one person, that's all the bands sounding like one another. They all sounded better then average but where was the variety? THE KRAYS were the only ones that had a "ska" song or two. Wasn't too many skins either which wasn't shocking but I like more of a mix. There was a good sized crowd and I saw THE PINKERTON THUGS for the first time. Like all the bands, they played PUNK ROCK. A punk rock kinda show.

\$10 at TRAMPS- This was a show to help Hale House so I went even though most of the bands were not right up my alley. I don't want to see SNUKA again. They didn't seem to be punk rock or hardcore, just some band. When each band was setting up one of the LUNACHICKS would raffle off various prizes. I liked FURIOUS GEORGE except for that song talking about a gun. They played twice since another band was late or cancelled. The big surprise was BREAKDOWN played. That rocked, I didn't even know they were on the bill. All I Ask rules, as does the song Blacklisted. I knew no band was gonna top them so I left shortly after. There was like 7 more bands to go or something. A lot of record labels were set up in the back trying to sell their stuff. It wasn't a bad show because I got a funny interview with SILENT MAJORITY.

Sometime in 97 3:00 PM CBGB. I can't remember if I reviewed this show or not. The reason is I see so many shows it's hard to remember all the bands I've seen. Maybe if I read another issue of

INTENSE CITY it'll remind me. At this show PACIFIER played. Was this the one where they played with GUY SMILEY? Who cares. GUY SMILEY, CHARLES BRONSON, all those bands that I **DONT LIKE**

December 13 at 3:00 PM ABC NO RIO. Saw PUSS 'N' BOOTS which is an all female punk/ hardcore band. Sure they're pretty, but how do they sound? For their first show they did alright and I can see potential in them. There was like a flood at this club so

at the front of the stage there was a big puddle. Oh well. I hope to see PUSS 'N' BOOTS in the future to see how they're progressing. MALADJUSTED were on stage and I thought it was AKWARD THOUGHT at first. A band that covers TOKEN ENTRY can't be that bad can they? Thankfully, MALADJUSTED weren't. People dancing a bit helped them out too. This was my first time seeing them ( That I can remember ) and I want to see them again.

At this point I went upstairs and evaluated my entire life. I thought about why I like certain people, and why I don't like certain people, realizing in the end it doesn't really matter. I wouldn't change a thing in my life but if I had to do it all

over, I wouldn't. You may not like me but at least you like my zine somewhat if you got this far. So I go back downstairs and it's NO REDEEMING SOCIAL VALUE who are playing at ABC NO RIO for the first time. For some reason the singer had camouflage on. I always like EULAV LAICOS GNIMEEDER ON and this show was like all the others, fun.

December 14 at 3:00 PM CBGB. Got there missing 95% of AKWARD THOUGHT. The end part to the last song they play is awesome. KILL YOUR IDOLS played good but not too many people showed. You can dance more this way but it's harder to "ride the crowd" or "bodysurf". Also there's no stagediving because someone got hurt and threatened to sue or something, but CBGB's will always be the best place for shows. SHUTDOWN play fast and energetic and the singer Mark had a lot of smart things to say inbetween songs. Each band had a shorter set than usual. Next up came CAUSE FOR ALARM who are personal favorites of mine. When they are in top form they are a band not to be missed. They played some great songs this show, new and old. A new one that made a powerful point is called Killing Children. It's on their new album. Still wasn't as crowded as I thought it might be. Then SUB ZERO ended the show playing songs like Fuck MTV... and I believe Boxed In, with of course many others. Even did a CRO MAGS cover. Since nobody asked, my least favorite song is America The Ungrateful but SUB ZERO are a band you should see time and time again.. Fun show.

IS WRESTLING REAL OR FAKE?

Music City Wrestling is a program worth watching if you're ever in Nashville, or at least Florida. Check your local listings. It's a Jarrett promotion with many new comers. Thrillbilly, PG-13, Frenchy Riviera, The Centerfolds, and Steven Dunn are some of the wrestlers involved. From the USWA and more recent the WWF, Flash Flanagan is also in MCW. Having spent some time in the WWF as well Recon of The Truth Commission is in the MCW too. I seen him beat Blade Boudreaux in a very short match. It was fun to see Billy Joe Travis also. The man was singing. He has a nice voice but gets some of the words wrong. Look for Stylin' Shane Eden too. If you want a video tape of a Thanksgiving show they did send \$20.00 to Choice Cuts Video 998 Elmhill pike Nashville Tn 37210 U.S.A.. MCW also did a Christmas Chaos event too. They don't have nearly as many angles as WCW, just good mat wrestling. If you're on-line it's WWW.MCWRESTLING.COM or do a search. Small promotions I'm looking to do reports on you so

Music City Wrestling

get in touch. The only wrestlers I like in the WWF right now are the Legion Of Doom, Sgt. Commissioner Slaughter, Jerry Lawler, Farooq, and Steve Austin. The NWO has most of their talent. Maybe if the original one known as the living legend (Not Larry) came back with a bunch of old wrestlers it would stop the NWO but that won't happen. I don't like the concept of Caine neither.

In WCW my favorite is Rick Rude but he's in NWO. Plus he's been in WWF and ECW recently so I don't think he'll stay in one federation more then a year or two. unless he finds what it is he's looking for. WCW also has a bunch of exciting "Lucha Libre" wrestlers which adds another fun angle. In ECW The Sandman and Tommy Dreamer are partners now. That's hard to believe since they fueded alot at one time. Little Guido, Tracey Smothers, and Tommy Rich are known as the Full Blooded Italians and it's funny as anything. Sabu and Rob Van Darn are on the pro-WWF angle that saw Lawler and Sunny get involved in. George The Animal Steele is in WWF and I think he should go to ECW. Now wouldn't that be something else. Send videos, photos, drawings, and opinions. Look for a bunch of fun stuff in future issues. This is the original classic wrestling zine. I'm planning a big issue so beware. And bring back the AWF.
